

**MINUTES OF THE GOVERNING BOARD
OF THE MOJAVE DESERT AIR QUALITY MANAGEMENT DISTRICT
VICTORVILLE, CALIFORNIA**

AGENDA ITEM 4

DATE: May 24, 2010

RECOMMENDATION: Set date of June 28, 2010 to conduct a public hearing to consider the amendment of Rule 219 – *Equipment Not Requiring a Permit* and approval of CEQA documentation.

SUMMARY: This item officially sets the date for the mandatory public hearing to be held on the amendment of Rule 219. Rule 219 is proposed for amendment to implement the provisions of Senate Bill 700 of 2003 (Health & Safety (H&S) Code §§40724-40724.7), and also to add a provision to include negligibly emitting fuel cells as specific equipment not requiring a permit.

CONFLICT OF INTEREST: None

BACKGROUND: The MDAQMD has the authority pursuant to California H&S Code §40702 to adopt, amend or repeal rules and regulations. The MDAQMD is proposing to amend Rule 219 – *Equipment Not Requiring a Permit* for inclusion in the current rulebook.

Previously, all agricultural activities were exempted from air district permitting by State law (former H&S Code 42310). Recently the federal government required the State of California to regulate, through permitting, many previously exempt agricultural activities. California responded by adopting SB 700 in 2003 provisions requiring air districts to adopt rules in part to regulate pollution from larger agricultural sources in the same manner as other non-agricultural sources with similar equipment. The proposed amendments to Rule 219 – *Equipment Not Requiring a Permit* will implement portions of the provisions of SB 700 by requiring all agricultural sources that meet certain thresholds of animals or regulated pollutants to obtain permits like other regulated sources. This rule action is a part of the entire implementation of SB 700 which also includes the adoption of Rules 403.3 – *Agricultural Sources*, 1160.1 – *Internal Combustion Engines in Agricultural Operations*, 1186 – *Best Management Practices for Agricultural Sources*, and 1186.1 – *Combined Animal Facilities*.

This amendment will also add a provision to include negligibly emitting fuel cells as specific equipment not requiring a permit. This is a similar provision contained in neighboring air district rules.
